

SECRETARY-TREASURER KINNAIRD REFUSES TO PAY WORKMEN

Claims That He Has No Authorization to Issue Checks To
Employees Placed In Position By Engineer Keely.

That things have not been going smoothly at the city hall since the new engineer came on has been common talk throughout the city for many days. It has been known to the man on the street for a week or two past that Engineer Keely was not finding that Secretary Kinnaird refused to pay men out of the 124 men under the city engineer's department.

When the clash came, it is said that the sparks flew copiously and that the atmospheric disturbance was noticeable for several blocks. Some parts of the dialogue were hardly suitable for publication, but it is reported by a few brave souls who had the temerity to hang around the arena of hostilities that City Engineer Keely charged Secretary-Treasurer Kinnaird in language that was not of the Alphonse and Gaston order, with doing everything in his power to tie his hands and hamper him in the carrying out of his work as city engineer. If the reports are true, there will have to be a good deal of soothing syrup administered if the city is to retain its present executive force and get anything done.

The whole trouble arose when the secretary-treasurer refused to issue time checks to seven of Engineer Keely's staff.

The employees in question were: W. B. Willis, inspector of plank walk construction.

E. H. Hillman, time keeper.

J. D. Currie, superintendent of construction.

Mr. Hill, levelman.

J. W. Gregory, draftsman.

Miss Logan, stenographer.

Some of the men are old employees who have been with the city a long time although not in the same capacity as they are now employed. W. B. Willis has been working for the city for four years, almost without interruption. Previous to Mr. Keely's engagement Mr. Willis was working at boulevarding, grading and brushing. When the engineer came on he changed Willis over from a boulevarding gang he was working with in the west end to be superintendent of construction on the plank walks which are being built in several parts of the city. Willis has held this position, evidently with satisfaction to the engineer for a month. For the fortnight ending May 12 he received his check as he had been doing for four years—from the secretary-treasurer. On Saturday, however, Willis told at the city office that there was no check made out for him and he was withheld.

E. H. Hillman, the next man, is also an old employee of the city. He was put on by Mr. Hargreaves and worked in different capacities up until the time that Engineer Keely came on, when Mr. Keely took him off the job of time keeper and put him on as superintendent of construction, superseding George Goodall. Hillman was also paid two weeks ago, but was refused a check Saturday night. His pay is said to be the same in his present position as formerly.

J. D. Currie, the third man, has been with the city for two years almost continuously. Under Engineer Hargreaves he was in charge of a brushing gang. When Mr. Keely moved Hillman up he put Currie in Hillman's place.

(Continued on Page Two)

Aldermanic Candidates Out- line Their Platforms

MR. CALHOUN'S PLATFORM.

1. In view of the large expenditures that the civic public works department will have to make this season, and my absolute lack of confidence in the ability of the Public Works Commissioner, I believe it to be in the best interest of the city to request his resignation before the ratepayers are asked to vote on a money by-law authorizing these expenditures.

2. That all material for civic utilities be advertised and bought by tender in order that every ratepayer doing business in the city will have an equal chance to be benefited thereby.

3. That the fire brigade be reinforced either by volunteer members or by a larger paid staff to insure the ratepayers against any advance in fire insurance rates.

4. In view of the fact that the Electric Light and Power plant is now undoubtedly placed upon a permanent paying basis, the accumulated profits all be close of 1905 amounting to \$25,873.71, and that after the present proposed extension of the power house plant, estimated to cost \$10,000, has been charged to that amount there will still be, or should be, \$15,873.71 as a reserve for any unforeseen expenditure on the plant, I would suggest a further reduction in light and power rates than what the commissioners have seen fit to recommend.

MR. McLENNAN'S PLATFORM.

To the ratepayers of Edmonton: In offering myself as a candidate for Alderman, I submit the following reflections on the present duty of that body, and the course that I intend to pursue if elected. I believe the present commissioners are incompetent, and if elected, will act accordingly. It is quite apparent that there is a great deal of friction in the city council itself, and that the legitimate business of beneficial legislation has been destroyed thereby. I believe it to be the duty of members of that body to sink their personal preferences for the general good. There is also a prejudice existing against the commissioner of public works. This feeling against that officer is shared by a large number of the ratepayers. Whether it is well founded or otherwise is not material in this issue, the fact that it exists, is working an irreparable injury to the city. The commissioner on the other hand, as the executive head of the department over which the city engineer has charge, entertains a feeling of resentment against that officer, because he has been supplanted by him, and as might be expected by the council when the change was made instead of trying to help the engineer, the friction is apparently carried to the verge of obstruction. I am therefore unqualifiedly in favor of removing the present Commissioner of Public Works.

I am also in favor of the judicial committee of the council in conjunction with the city solicitor, drawing up a set of rules, defining (within the limits of the charter) which is vague in many respects) the particular duty of the commissioners and clearly separate the same from that of the council and to further define the duties of city engineer and what authority if any shall be exercised by the commissioners over that officer.

I am in favor of taking immediate steps to install sanitary sewers in all the congested parts of the city. In the past two years we have nearly doubled our population and yet the provisions for the extension of the system three years ago is still uncompleted, and no provision has been made so far either to extend or complete that which was provided for. We have the sad spectacle

(Continued on Page Three)

ALSO HAD A 'QUAKE

New Lake Near Swift Current Caused
by Seismic Disturbance

Swift Current, May 28.—Corp. Botley, R. N. W. M. P., who has been out on patrol duty for several weeks, turned up at Swift Current with a strange story amassing of the improbable, but backed up by such facts that put disbelief out of the question. It seems that on the first night of the San Francisco earthquake, a band of Indians was camped near Eagle Quill Lake, and that during the night the members of the band were all awakened by a violent shock which might have been associated with the earthquake in some way. That there was a terrific convulsion of nature of some sort there could be no doubt, as in the morning it was found that an artesian well had broken loose in the bottom of the coulee near by and was throwing water thirty feet in the air. The coulee rapidly filled, as did the adjoining depressions in the land and a fair sized lake now exists where there was no trace of water before. The new lake is twenty miles south of Swift Current.

PRINCESS ENA SECURED PARDON

Influenced King Alfonso to Pardon a
Condemned Criminal

Madrid, May 26.—The notable act of Princess Ena of Battenburg since her arrival in Spain to become the bride of Alfonso XIII has been to induce the King to pardon Fernando Llovera, who was condemned to death after an exciting trial. The dramatic climax under which the pardon was given was the condemned man was going to the gallows attracts widespread attention and further arguments the popularity of Princess Ena. Llovera was to have been executed in the neighboring town of Atocha.

Madrid, May 26.—The Pardo Palace was given a scene of royal ceremonies the ideal weather permitting of open air religious service on the lawn of the palace where the military band celebrated a mass. It was a pretty sight with the brilliant uniforms of the soldiers forming a background for the royal personages. Princess Ena's interest in the Spanish uniform led King Alfonso to summon six soldiers representing the various arms of the service for his bride elect's inspection of their arms and accoutrements. This was a source of special satisfaction to the influential army elements.

CZAR'S REPLY IS NEGATIVE

Hopes of Russian Parliament Dispel-
led by Government Message

St. Petersburg, May 28.—Before a house more crowded than on opening day, with every member in his seat and the galleries crowded Premier Gorky read to the Lower House the expected declaration of the Government's policy pronouncing the imperial negative on the most cherished hopes and plans of the people's representatives. In the imperial box sat the Grand Duke Nicholas Nikolaevich following the proceedings with the keenest interest. There was scarcely a standing room in the section assigned to the members of the house.

BIG ELEVATOR MAY BE RUINED

Ogilvie Elevator Badly Damaged by
Collapse of Foundations

Port William, May 28.—The foundation of the mammoth steel elevator owned by the Ogilvie company gave way Saturday night and the big building is threatened with total destruction. It contains 350,000 bushels of grain. When the fire alarm sounded, citizens little dreamed that they were to witness such a spectacle. There were hundreds of people on the streets at the time. The millwright at work in the basement was startled by a cracking noise and hurriedly making his way out of the building, escaped just as the foundation collapsed. The estimated loss is \$250,000. The building itself, which was valued at \$350,000 is not a total loss. It is estimated that not more than 40 per cent can be saved of the grain in the elevator. The accident has been attributed to many causes, but the general belief is that the concrete work was defective. Engineers who have examined the building share this opinion. The building which had a capacity of 500,000 was constructed by the MacDonald Engineering Company of Chicago and was completed January 1st, 1904. Transferring the grain from the building is going to be a difficult undertaking as in its present position it is liable to topple over. The new mill adjoining the elevator apparently suffered no damage.

TRIED TO CLIMB A CHIMNEY.
Kingston Ont., May 26.—This morning John McGee, a convict who tried to escape from the penitentiary Thursday night died from injuries received by falling down the chimney up which he was climbing.

WILL RESUME WORK IN NORTHERN OIL FIELDS

Edmonton and Athabasca Development Company Will Pro-
secute Work During the Summer.

J. Bennetto, of the Edmonton and Athabasca Development Co., arrived in the city last evening on the C. N. R. from Winnipeg, and will leave for the north to-morrow to take charge of the company's oil borings at Fort McMurray. The company last year began boring for oil at Fort McMurray, but were unable to reach a depth of more than 500 feet, for lack of better and more powerful machinery. There were, however, splendid indications of the presence of oil in large quantities. Mr. Bennetto returned from Fort McMurray last fall after a hazardous journey over the river and through the bush. This year he is taking with him more machinery of a more powerful quality,

which will enable him to reach a depth of two or three thousand feet if necessary. Mr. Bennetto is also taking six men with him from Edmonton and will employ more in the north. He expects, providing no serious difficulties are met, to return in the fall with the prospect of establishing the enterprise. The company has now a charter to build a railway to the Fort, and if the borings are favorable and oil is struck in large quantities will construct the railway at once. The route will be by way of Athabasca Landing. Mr. Bennetto says that if large quantities of gas were found it would impede the boring for oil considerably, but he is taking with him enough piping to meet this emergency.

SAYS SURRENDER WAS JUSTIFIABLE

General Nogi Endorses Stoesel's
Action in Giving up Port Arthur

Tokio, May 28.—General Nogi, has wired asking whether it is true that General Stoesel, defender of Port Arthur, has been sentenced to death for surrendering the fortress, and adding that in his opinion the surrender was justifiable.

NOW A UNITARIAN.

Toronto, May 28.—Goldwin Smith, who was to have preached in the Unitarian church was unable to be there. His medical adviser would not permit him to go out owing to a serious illness when developed early Sunday. His conditions improved today.

TYPHOID FROM MILK

St. John, N.B., May 28.—A large quantity of infected milk was seized at the Union Depot and destroyed Saturday. Last week 50 cases of typhoid broke out in the city and a detailed analysis was ordered by the board of health, with the result that milk supplied by certain dealers was declared impure.

KILLED AT A GAME

Mobile, Ala., May 28.—During a ball game a thunder storm came accompanied by vivid lightning which struck in the midst of a crowd of spectators, instantly killing five persons and injuring about twenty-five.

SECRETARY-TREASURER KINNAIRD REFUSES TO PAY WORKMEN

(Continued from Page One.)

Ham's place as his keeper. Two weeks ago Currie was paid as usual, but Saturday night no check came through for him.

W. H. Gregory, the draftsman, is one of Engineer Keeley's own appointments. He was put on about a month ago. Two weeks ago he was paid but on Saturday night was refused a check. The other two are a young man by the name of Hill, who was put on a couple of weeks ago as levelman, a rod man, recently put on and the stonographer employed in the city engineer's office, Miss Logan.

Engineer Keeley was seen about the matter this morning and admitted there had been trouble about the employees' checks. He said that the excuse that Mr. Kinnaird gave was that he, Mr. Kinnaird, was not authorized to issue the checks. When asked what authorization was required and what authorization the secretary-treasurer had for paying the same men two weeks ago Mr. Keeley said he had not found out yet, but proposed to do so as soon as he was able to meet the council.

Secretary-Treasurer Kinnaird, when spoken to about the subject, refused to talk. He admitted it was true that some of the employees had not been paid, and when the number was named as seven said that that was correct. When asked why they were not paid he said that he was not authorized to pay them. When asked what authorization he had for paying the same men two weeks ago he walked away back to the rear corner of the office and left the reporter standing at the entrance.

"Then you refuse to discuss the matter at all?" asked the reporter, across the room.

"Yes," said the secretary-treasurer, and that closed the interview.

A great deal of comment is heard on the streets about the remarkable stand of the Secretary-Treasurer, and there is much speculation as to what led him to refuse to pay men Saturday when he had paid two weeks before. Some contend that the friction may not be altogether of Mr. Kinnaird's origination and suggest that the trouble appears to be over a group of Mr. Hargrave's apprentices more than anything else. In this connection it is pointed out that when Mr. Hargrave was on the coast two weeks ago the men were paid. On Friday he again returned to the city office and on Saturday the men were not paid.

MR. REVILLON RETURNS

Mr. Theodore Revillon, general manager of the Edmonton wholesale and retail branches of the firm of Revillon Bros., returned last evening on the C. N. R. from a four months' visit to the firm's headquarters at Paris, France. Mr. Revillon combined business with pleasure in his trip, and attended to several matters of business in connection with the firm. To the Bulletin this morning Mr. Revillon stated in connection with the fur trade, that the recent troubles in Russia had had no lasting effect upon the fur market in Europe and that he had found the market very steady and the prices good.

SUPREME COURT

Judge Harvey will open the June sessions of Supreme Court at Fort Saskatchewan tomorrow morning. There is a fairly good sized crowd of criminal and civil cases. When court concludes at the Fort a special sitting will be held at Wetaskiwin. The Edmonton sittings will open June 5th, with Judge Harvey presiding. CORRESPONDENCE INVITED

Edmonton Branch : : H. A. GRAY, Agent.

A BUDGET OF ALBERTA NEWS

Lacombe Advertiser: The question of leasing adventures for \$30,000 for the purpose of erecting an up to date brick school building in Lacombe, came before the ratepayers on Wednesday the 23rd, and carried by a vote of 80 for and 5 against.

Leithridge News: Addressing the city council last night, L. M. Johnston said he represented a concern that thought of boring for natural gas. Both local and outside capital was interested and those he represented were financially well able to carry out what they undertook. They wanted the council to agree to give them permission for the use of the streets for laying pipes in return for their expenditure in making tests and their subsequent expenditure on building and plant. They would also agree to supply gas for domestic use and power at specified rates and to give the city the right to purchase the gas wells after a certain period at a stated percentage in addition to cost. Mr. Johnston said that the finding of gas would go far to make the city a manufacturing centre and would be of benefit in other ways. It was a speculative enterprise. It would cost money to bore and they might not find gas. The council could hardly speculate with public funds. But the capital he represented was willing to do so with its own money. He asked for the appointment of a committee and he would shortly be able to present a more detailed and precise proposition.

The council decided to take time to consider the proposition and to get further particulars.

Red Deer News: The public meeting held last evening for the discussion of hospital affairs was attended by about thirty-five ladies and gentlemen and was fairly representative. It is certainly a pity that more deep interest is not taken in this matter by the citizens generally but of course the weather was unfavorable in this case. The general feeling expressed by the meeting was that while there were difficulties in the way of the town actually taking over the property, yet the citizens were in favor of a liberal grant to relieve the present situation and enable the hospital to proceed with its good work.

Red Deer News: To aid in the publically campaign now being waged throughout the west, the Red Deer board of trade has issued a descriptive pamphlet setting forth the commercial and residential advantages of the town and the resources of its surrounding country.

Wetaskiwin Post: On Friday afternoon Mayor Swoboda, sons members of the council, and the board of trade, together with Messrs. Jax, Atkinson, P. Weller and W. W. Smith drove out to Dick Hawke's farm, with the object of testing the new explosive "Jexite." The first charge put in blew loose and shattered about three tons of rock and was a pronounced success. The second charge was put into a solid rock (niggerhead) but owing to some defect in the fuse or in the charging of the hole no explosion resulted. Although at first very cautious, the party gradually collected about the rock as there seemed no possibility of the charge exploding. There was no sign of smoke and the fuse was apparently dead. While an attempt was being made to clear and recharge the hole, and most of the party were standing close up to the rock, the charge suddenly exploded, throwing large pieces of rock upon some of them and injuring Weller and Atkinson rather seriously.

Ponoka Herald: Friday and Saturday witnessed a large shipment of fat stock that has even despatched from the district of Ponoka their destination being Montreal, Vancouver and Calgary. From early morning on Friday till well on in Saturday afternoon some travelling long distances, but under the masterful supervision of W. P. Puffer, backed by his lieutenant, H. E. Peniston, the shipping was carried through without a hitch. Nothing but the most favorable comments were heard as to the quality, and Mr. Puffer was highly satisfied with this condition. The strangers who were in town could scarcely realize that such beef could be raised without corn, and when it was explained that not only was it so, but that the large majority were fed in open yards right through the winter their surprise was indeed great.

High River Times: The disposal of 1300 head of fat cattle by George Findlay, of High River, to Burns & Co., will give our readers a vague idea of the number of cattle raised in this district. The cattle were fed on hay all winter and averaged 1540 lbs. each, which is a splendid average.

CRYSTAL CONTRACT LET.

The contract was let this morning for the Crystal building which is to be put up on Jasper between First and Second. Copp and Anderson are the successful tenderers. The price is stated as \$18,000. Excavations will be commenced at once and construction begun as soon as brick can be secured. At the present time there is a shortage of brick in the city which is having the effect of holding many buildings back.

ALDERMEN OUTLINE THEIR PLATFORM

(Continued from page one.)

cle of an engineer of doubtful ability setting aside the system prepared by the most expert sanitary engineer in Canada, Mr. Chipman, of Toronto, plans which cost the city about \$8,000, and since those plans have been set aside he has submitted three or four substitute propositions, each of which he says is correct. Engineering is supposed to be based on concrete mathematics, and I submit if any man can get three or four different answers to the same problem and have all of them correct, he is a prodigy worthy of a place among the French Immortals.

I propose that the city engineer be called upon to immediately prepare a system of sewerage and that all plans prepared by the present commissioner of public works be abandoned, except so far as any part of them may conform to plans prepared by the city engineer.

I am in favor of separating the office of commissioner from that of secretary-treasurer, as the functions required in each office are so separate and distinct that it is nearly impossible to find such combination in any one person.

The condition of the city during the fire of last Wednesday night needs no further comment on the dereliction of the commissioners, who are by the charter entrusted with the protection of property, and in this case they cannot claim that council has not made the necessary provision.

I make these reflections on the commissioners of finance and public works, and they do not apply to the mayor, as it is impossible, and the citizens do not expect that an officer ex-officio can give his attention to matters of detail.

I am in favor of the prosecution of all public works and improvements in all parts of the city consistent with the financial protection of the city's credit.

JOHN McLENNAN.

SOLID BRICK FOR FIRST STREET

Tenders will probably be called for next week for the hotel building which Ferguson & Calhoun intend to build on corner of First and Athabasca. They have decided to put it up of solid brick, which will make it one of the principle buildings of the city.

RECOGNIZANCE OF PEACE RIVER

Mr. W. C. King, an old Hudson's Bay man, well-known throughout Alberta and Athabasca, and Mr. S. P. Fisher of Winnipeg, N.B., on the north this morning with a pack train of ten horses, two packers and a cook, and expect to be away for six months.

Mr. King is not giving out anything with regard to his mission or intent. However he was in the north last year for the Canadian Northern and it is presumed he is acting in the same connection this year. He is headed for the Peace River country and by the size of the outfit it is evident he is out on an extensive reconnaissance.

If the presumption is correct that Mr. King represents the C.N.R., his trip probably foreshadows railway activities of immense importance to the city of Edmonton.

SASKATCHEWAN PARLIAMENT BUILDINGS.

Regina Leader: Supplementary estimates were brought down in the Legislature last night. They provide, amongst other things, a vote approximating \$150,000 for purchase of site, preparation of plans and commencement of work on the new parliament buildings. The sum of \$75,000 a year is required for the province's share towards the maintenance of the R. N.W. M.P.

Ottawa, May 27.—A report has been received from Canada's trade agent in South Africa stating that the 25 per cent preference now given to Canadian articles in the ad valorem list has been extended to articles in the specific list. Canada asked for this some time ago and now the request has been granted.

TO PREVENT INTERFERENCE

Toronto, May 26.—The Canada Foundry Company have issued a writ for an injunction to restrain the striking ironworkers at Port Arthur from interfering with their employees, preventing or persuading others from entering their employ and to restrain them from boycotting those firms and dealers with whom the foundry is doing business. The writ is directed against J. R. Massey, William Higgins, D. McGinnis Albert Bullock, Wesley McDonald and William Duncan, each sued individually and as officers of local union 53 of the International Ironworkers.

THE CHURCHES' PROBLEM

Winnipeg May 26.—Do you know that there are 300,000 people in the west who speak alien tongues? That every hundredth man in Winnipeg is an Arab and that every twelfth man in the three west provinces is a Gallian? said Rev. D. B. Harkness, superintendent of the non-English mission of the Baptist church in the course of an able address at Grace Methodist church yesterday on "The New Canadianism." Mr. Harkness quoted these significant figures to emphasize the diversity of nationalities to be found in the west and the problem which the church is facing.

THE BATTLE FOR MONOPOLY

Elsewhere in these columns is published an extract from an editorial article in the Conservative organ published in the capital of the Dominion. The extract fairly represents the tone and purport of the article. According to the Citizen, the only proper alternative to excluding the Hill system is to abandon the Grand Trunk Pacific. To most people this will appear a peculiar proposal for preventing the diversion of Canadian traffic to American roads or for recovering such of that trade as might be diverted, yet such is the proposal that is calmly advanced and elaborately argued under cover of a horror lest Canadian commerce follow the channels south of the boundary. If there is a danger of Canadian trade being so diverted the reasonable course would appear to be to construct a sufficient number of Canadian lines to handle this traffic and to ensure a competition north of the border which would retain the traffic in the hands of Canadian systems.

The more or less polite request of the Citizen amounts practically to a demand that the Canadian Pacific monopoly on through freight be maintained. The only company already operating a through Canadian line to the east is the Canadian Pacific Railway Company. The line of that company is already congested with the traffic created along the existing lines and however great might be the diversion to other routes the development of the west will prevent the volume of trade following this line from falling below the present mark. The Canadian Pacific therefore having already assurance of all the trade it could handle would be under no pressure to compete with the American lines for the trade generated along the new system. The consequence might well be that that trade would be forced to follow the American routes not because western Canadians preferred such routes but simply because, in the words of Sir William Van Horne, "the spot is too small for the hopper." And the Canadian Pacific, being the shorter route of the two, would fix the charges for both routes. The net result of the Citizen's alternative proposal, therefore would be to leave the western trade under the incubus of the present excessive rates and to force through the longer American routes the traffic which could not be handled over the one Canadian line. In the final event the retention of the trade to Canadian roads will depend on the ability of the roads to handle the trade and on their ability to secure it. The existing road could not handle the trade and would therefore have no incentive to bid for it against the American lines. If Canada had no Grand Trunk Pacific project in hand the advent of the Hill system would be the best of reasons for undertaking such enterprises.

This strenuous campaign of the C.P.R. champions is founded on two altogether mistaken notions, that competition to the Canadian Pacific Railway can be excluded from the west, and that such exclusion would be for the benefit of the Canadian Pacific Railway. Twenty years ago the Canadian Pacific Railway was trying to exclude competitors from the Province of Manitoba and the hopelessness of the task was well summed up by Sir John A. Macdonald in the remark, "You cannot check Manitoba." An hundred times less likely of success is the present attempt to check the development of the three Manitobas between the Lakes and the Mountains. Nor would the success of the effort be a real gain for the corporation in whose behalf it is made. The entrance of competition into Manitoba did not reduce the C.P.R. to poverty. It did reduce it to a measure of reason and induce in it some degree of consideration for the people who supported it. But the ultimate result has been settlement and development which give the C.P.R. many times over any traffic it may have lost. If the champions of the Canadian Pacific Railway were any of the type who never learn by or might draw from this that the present "invasion" of competitors will mean ultimately increased traffic to the corporation which they serve. That, indeed, is alike to fight and reason, they have also declined to learn from history doubly because then an execrable memory in the provinces whose progress they have sought to stifle in servility to a mistaken greed.

CURRENT COMMENT

Mr. Haultain and his followers have persistently claimed that the issue of their election was that the Saskatchewan Act should be submitted to the Privy Council. Yet Mr. Haultain and his followers on Tuesday voted to a man against the motion introduced by the member for Saskatoon, "that an 'humble address to His Excellency, the Governor General of Canada be adopted by this House praying that he will be pleased to take steps to have submitted to the Judicial Committee of the Imperial Privy Council the question of the constitutionality of the Saskatchewan Act and of the several provisions thereof." In voting to prevent what they have advocated for a year past the Saskatchewan Opposition have made a beautiful parallel to the performance of the Federal Opposition in voting to block the investigation of their charges regarding the Arctic supplies.

The Ottawa Citizen asserts that had Canada been a part of the American Union the great railway systems of the continent would have run north and south instead of east and west from this tries to argue that if Mr. Hill builds railways in western Canada the trade of the west will flow south instead of east, and urges this as a reason for abandoning the construction of the Grand Trunk Pacific. What authority the Citizen may have for this assertion that the union of the two countries would have changed the direction of the channels of commerce it does not inform us, nor how this theory avoids the inconvenient fact that the transportation systems in that portion of the continent included in the United States run not north and south but east and west. Neither does it explain why the projection of American roads across the boundary should cause the commerce of this country to flow in a direction in which the same American roads have been unable to cause the commerce of their own country to flow. But the climax is reached when the Citizen despairingly proclaims that if the new system should "divert the traffic of the Northwest and British Columbia into the United States the government can no longer justify the construction of the 'Grand Trunk Pacific.' Such eventualities, we presume to suggest, would be one of the best reasons possible for constructing the Grand Trunk Pacific, and the most certain and speedy way to accomplish the dreaded diversion would be to neglect the construction of that line. If western Canadian commerce were diverted to the American lines it would be diverted either because the Canadian lines could not handle the traffic or because they demanded more than competitive rates for handling it. And the only means of securing or recovering this traffic to Canadian lines is to construct enough lines to handle the traffic and to construct them under conditions which will both enable and compel them to compete for the traffic on favorable terms with the American roads. And the greater the fear of the diversion of the traffic the greater the necessity of constructing more through Canadian lines.

SHOT HIS WIFE.

Kingston, May 27.—Early this morning John Joyce, an English immigrant, who arrived about a year ago, shot his wife and seriously injured his father-in-law, Cornelius Wood, on the farm of James O'Brien, near Railton. Family troubles are said to have been the cause. The murderer has barricaded himself in the house and will defend himself against the authorities.

SHOT IN A QUARREL.

East Toronto, May 27.—Charles Sheard was shot and dangerously injured by Wm. Maynard near Scarborough Saturday. Maynard went to Sheard's and gave Sheard abuse. He ordered Maynard off his place and turned to go into the house when Maynard fired six shots. One took effect. Maynard was arrested and Sheard is dying.

WOMAN SUICIDED.

Windsor, May 28.—Because her husband had refused to have anything to do with her, Mrs. Roy Raymond, aged 31, took poison at her father's home this morning, from the effects of which she died a few hours later.

TWO BOYS DROWNED.

St. John, N. B., May 28.—At Millville Saturday Walter and Ernest White, aged ten and twelve, were drowned. The boys were playing on a rock in Kennebec Lake when the younger lad fell into deep water. His brother leaped over to help him but could not recover his balance and was pulled in.

The "Semi-ready" franchise in a town is as valuable as a public utility franchise. It gives the monopoly of merit in men's clothes.

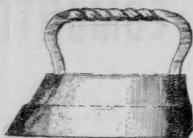

Only one dealer in a town can sell the real "Semi-ready." Dealers who did not get the franchise for the prosperous towns are sorry, though they declined it seven years ago on the ground that the profit fixed by the makers was a small one. They argued they could make bigger profits selling ordinary ready-mades. The real profit in Semi-ready tailoring is the many sales made and the ease with which goods can be sold when the maker gives the guarantee bond found in every pocket of every Semi-ready garment. New customers of Semi-ready are regular patrons.

Overcoats for Spring at \$15 with just as good style and material as you usually pay \$25 for.

Tenders For Purchase of
Brenton Property

The Brenton property, corner of Clara and First streets, is for sale. As we have had several offers for the above property, and in order to allow hard feelings that have arisen between certain parties over the sale of this property, we will receive tenders to ten o'clock Tuesday, May 29, for the purchase of the same, for cash or on terms. Tenders to be sealed and marked "Tenders for Brenton property."

Highest or any tender not necessarily accepted.

FIELDING NO CANADA'S PROSPERITY

(Continued from page five.)

and a half per cent.

The Russian government placed recently on the money market a loan of \$418,000,000 and so unfavorable was the condition of the market that they were obliged to pay within a fraction of six per cent. for the money. Of course, Russia has suffered a great deal from the Japanese war. Her prestige is not what it was, but she is still a great nation, and no one doubts but what her securities will be redeemed in due course.

We have been fortunate in not having to go to the market. With our abundant revenues, which are exceeding our expenditures, we have been able to provide very largely for our own capital and ordinary expenditures, as well as to a considerable extent for the redemption of maturing loans. We believe it was more expedient to issue a treasury bill at a possibly higher rate for the moment than to issue permanent stock. We have now outstanding an issue of treasury bills of \$600,000. These were first issued in March, 1905, at a cost of 21-4 per cent. discount, a particularly favorable rate. They were renewed later for 31-8 per cent., they were again renewed for 31-4 per cent., and are now outstanding. We have had other issues on which we have paid as high as 33-7 per cent.

In addition to this \$600,000 of a temporary loan we have an overdraft at the bank in London for \$400,000 sterling. We had an issue of \$800,000 of treasury bills maturing and we thought it was not wise to renew them at the moment. We were able to pay off \$400,000 of them and the balance remains for the time being as an overdraft. Whether we shall let it remain in that position or issue treasury bills in a point to be considered. We are awaiting a favorable opportunity.

Mr. Foster—"What is that costing you now?"

Mr. Fielding—"The overdraft takes the Bank of England rate at the time, whatever that may be. The bank rate recently was 3-1-2 per cent., it was raised a couple of weeks ago to four per cent., the last report I read was probably it will be down again to 3-1-2 per cent."

Mr. Foster—"Where is that held?"

Mr. Fielding—"In London, by the Bank of Montreal. These are our only temporary loans. We have now maturing large loans and we have large obligations, particularly those arising out of the Transcontinental Railway, and as these obligations come upon us, it is very desirable that we should meet them by the issue of public loans, and when the money market is in a more favorable condition for that purpose we shall certainly deem it our duty to issue a public loan in the usual way."

The finance minister presented a statement showing the bonds falling due between now and 1910 amounting to \$27,718,000. Passing from this subject Mr. Fielding referred to the steps the government has taken to secure the depreciation of American silver at present in circulation in this country. Up to date the amount of United States coin disposed of in this way was \$2,770,750. This had practically all of it been replaced by Canadian silver currency.

Mr. Fielding in proceeding said, "In ten months of last year the immigration into the Dominion was 93,309 and in the corresponding period of the present year, the arrivals have totalled 117,585. The arrivals from Continental Europe numbered exactly the same in both years, namely 23,739. The arrivals from the United States for the ten months in the current year numbered, however, 43,291, as compared with 31,969 last year." Incidentally Mr. Fielding remarked that these were among the best settlers we are getting today. He had such a firm and abiding faith in the all-absorbing power of British soil and British institutions that he had no doubt these people would yet become some of the best Canadians in the country.

"If we turn to the returns of immigration from the mother country," said the minister, "we find an equally gratifying state of affairs. Last year in the ten months the arrivals from

the United Kingdom numbered 43,703, while in the ten months of this year we have received 50,000. While, therefore, we are glad to welcome to Canada settlers from the continent, I am sure we are all the more pleased to have a large proportion of those who come from the motherland and from the United States, who speak our language and are more familiar with our laws.

It was announced by the prime minister some time ago that the proposed revision of the tariff would not take place during the present session. "I very much regret the circumstances which obliged that announcement, but there appeared to be no help for it. We thought, after that decision was reached, that the House would have a shorter and quieter session."

Mr. Foster—"Was it entirely the strained ankle?"

Mr. Fielding—"If the honorable gentleman can suggest any other reason, would he kindly do so?"

Mr. Foster—"It is hard to get inside the honorable gentleman's mind."

Mr. Fielding—"I can say that so far as I am concerned there is no other reason."

"We have no changes of a material character to make in consequence of the premier's announcement. I have, however, one or two small resolutions to present, merely to confirm existing conditions. The first resolution is to extend for a further period of six months the exemption already provided for in our tariff as respecting the duty on beet root machinery. We therefore propose to extend that exemption to December 31 next. There is a similar exemption in the tariff with respect to machinery used for alluvial gold mining. We propose to extend that also to December 31 next."

"We propose a resolution to confirm in the tariff an arrangement which has recently been come to with respect to the re-rolling of steel rails. It was reported to us some time ago by the Grand Trunk Pacific company that they wished to take up a lot of old rails and send them abroad to be re-rolled, and then bring them back to Canada and lay them on some of the branches. They said that there was no way in Canada where they could get this work done and asked us to admit the rolled rails duty free. We were not able to agree to that, but we agreed that, if there were no establishment in Canada which could do this work we would allow the rails to be sent to the United States to be re-rolled and then brought back to Canada and in that case we would levy on them duty on the value of the labor put into the operation of re-rolling in the United States. A refund of duty was allowed to the G. T. P. company with respect to a quantity of rails they are importing under these circumstances. We did not think the matter should be dealt with in that way, but in the form of a tariff resolution which will subject them to a duty of 25 per cent. of the value of the labor employed, provided, however, that such arrangement shall not continue longer than the establishment in Canada of any factory or mill equipped for doing this work. When that is done all such rails will be admitted at the regular rate of \$7 a ton."

"With respect to the tariff generally you are aware that two of my colleagues and myself, with sometimes others, have made a very extended tour and have enquired as far as possible into the desires of the people of all classes in relation to the tariff. In every part of the country the hearings were attended with a great deal of interest. People came long distances to present their views and I think they were satisfied with the manner in which they were received."

"We hope, during the recess if this session doesn't extend to too great a length, to take up the work, and at the November sitting, unless there be delays in the present session to cause a change in that programme, to bring forward a revised tariff, not one which will make any great changes, perhaps, but one which will meet such new conditions as have arisen, and we hope for the same measure of success that we have had in the past in devising a tariff which will meet the requirements of all interests in the country and that we shall have again a period of tariff stability under which the industries of Canada will go on and prosper as they have done in the past nine years."

BEWARE OF "WOODEN NUTMEGS."

THIS is an age of imitations! The symbol of the period should be the "Wooden Nutmeg."

Every sincerely good and reliable article of commerce has today a score of deceptive substitutes poaching upon its market. And, if the substitutes were as good as the originals they would not need to imitate the outward appearance of these originals, but could create a market of their own, on merit.

The Maker of a sound, and reliable article makes it sound and reliable so as to deserve, and hold, a future market.

The Maker of a substitute for that article makes it for present profit only—to trade upon the goodness of the original.

He has nothing at stake for the future, and his policy is to give you the shell without the kernel—the appearance without the value.

Some Shoe Retailers prefer selling "long-profit" shoes to selling "The Slater Shoe" which is price-controlled by the Makers.

But, don't forget that the Slater Shoe is priced by the Makers to prevent your being over-charged when you buy them.

Look for the Slater frame and the Makers' price, \$4.00 or \$5.00 on the lining.

ATHABASCA LANDING.

Athabasca Landing, May 24. — Mr. J. Wood, who has the contract for carrying the Hudson Bay merchandise to Port McMurray, 250 miles north of the Landing on the Athabasca towards its outlet, left with the first consignment on the 18th inst. The flotilla consisted of nineteen boats, each manned by three or four boatmen. The boats will run the Pelican Rapids, but the goods will have to be portaged at the Grand and at the Cascade Rapids. At Port McMurray the freight is transferred to the company's steamer Orham, which conveys it to Smith Landing, where there is a portage of sixteen miles to Fort Smith. Here the goods are again transferred, this time to the steamer Wrigley, which carries them to posts on Great Slave Lake and the McKenzie river.

The steamer Midnight Sun, in charge of Captain Derry, left this morning with another consignment of goods for the Hudson Bay Co.

Hyslop and Nagle's boats left Monday for their northern posts.

Rev. Father Lefebvre spent a few days at the Landing looking over the country with a view of placing a colony of one hundred and fifty French-Canadian families who are at present in the Yukon.

Mr. Majore, of Baptiste Lake, has 140 acres of crop this year.

Mr. Kelly, who has been ill, is now convalescent and left on the Midnight Sun to join his party in the north.

Bishop Reeves left on the 16th inst. to visit the Anglican missions in the far north.

PORT SASKATCHEWAN NEWS.
Port Saskatchewan, May 25.—At the gate Victoria Day a little over six hundred dollars was taken in and there were ten stands at ten dollars each. Together with the grand stand tickets, this will leave the Port Saskatchewan Industrial people with money in pocket.

H. Ayers, caretaker of the public school here, who has been suffering for some time past, has recovered considerably.

The town is certainly not "on fire" to-day. As it was at one extreme yesterday, so it is at the other to-day. The hotelkeepers are counting their money and have good hopes of finishing by to-night.

"BOBS" PRAISES CANADIANS.
London, May 27.—Lord Roberts before Hamstead Patriotic Society Saturday praised Canadian sentiment. He was proud to have had Canadians under his command in South Africa and was proud of the splendid way the colonial troops behaved. It was the Royal Canadian regiment at Paardeburg which was ready to close in upon the enemy's trenches. But for the white flag hoisted it had taken the point to attack the enemy in their stronghold.

TRACK BUILDER KILLED.
Kenora, May 26.—Fred Bunay, who was employed at Peterson's camp, Oatland, met his death this morning by being run over by the second section of No. 2. He was working on the double track and was driving a wagon with a team of horses when he was struck by the train. Bunay was immediately killed. The horses were also killed.

GRAND ORANGE LODGE MEETS.
Toronto, May 25.—Prominent Orangemen all over Canada will be present at the annual meeting of the Grand Black Chapter of British America and Grand Loyal Orange Lodge of British America, which will open in Victoria Hall tonight.

BALL SCORES.
Winnipeg, May 25.—Saturday's baseball scores, Winnipeg 8, Duluth 4; Hancock 3, Lake Linden 9; Calumet 2, Houghton 2; Grand Forks and Fargo, rain.
Sunday—Lake Linden 7, Hancock 5; Houghton 5, Calumet 1; Grand Forks 4, Fargo 2.

ELECTION CASE IN JULY.
Halifax, May 26.—A motion has been made to dismiss the election petition against Hon. W. S. Fielding on the grounds that the six months during which the date for trial could be set has expired. The court dismissed the application, three judges taking this view. The remaining justice favored the dismissal of the motion. The case will come up in July.

ANOTHER CONTRACT LET.
Montreal, May 27.—Fifty miles of the G.T.P. from Quebec bridge westward have been assigned to M. P. and J. T. Davis, contractors, who will begin work at once.

NOTICE TO CONTRACTORS

Tenders for Steel Rails and Fastenings and Railway Ties.

SEALED TENDERS addressed to the undersigned, marked on the envelope "Tender for Railway Ties," "Tender for Splice Bars," "Tender for Bolts and Nuts," "Tender for Spikes" and "Tender for Nutlocks" respectively, will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until two o'clock noon of the 7th day of June, 1906, for sixty-five thousand (65,000) gross tons of eighty pound (80 lb.) steel rails (open hearth or Bessemer, at the option of the Commissioners) and the necessary fastenings; and for one million, five hundred and forty-five thousand (1,545,000) railway ties; in strict accordance with the specifications of the Commissioners.

Tenders must be made on the forms supplied by the Commissioners, which, as well as the specifications, may be obtained on application to Hugh D. Lumsden, Chief Engineer, Ottawa, Ont., to A. E. Doucet, District Engineer, Quebec, P. Q. or to A. E. Hoegns, District Engineer, Kenora, Ont.

Full information in regard to deliveries, quantities for which tenders will be received, and also as to the other conditions on which tenders are made, is given on form of tender. A sample of the nutlock tendered on must accompany each tender for nutlocks. Each tender must be signed and sealed by all the parties to the tender, and witnessed, and be accompanied by an accepted cheque on a chartered bank of the Dominion of Canada payable to the Commissioners of the Transcontinental Railway for a sum equal to ten per cent. (10 per cent) of the amount of the tender.

Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.
The right is reserved to reject any or all tenders.
By order, P. E. RYAN, Secretary.
The Commissioners of the Transcontinental Railway.
Dated at Ottawa, 19th May, 1906.

—The Young Peoples Union of First Baptist church will visit the society of Strathcona Baptist church this evening at 7.30. Busses will leave the church here at 7.30.

—The church shower which was to have been held some time ago by the Ladies Aid of Queen's avenue church, but which was postponed owing to the inclement weather, will be held on Thursday afternoon next in the church. Refreshments will be served.

—Vermilion Signal: On Saturday last an outfit of fifty teams from the G. T.P. camp of J. A. Sandgren on Ribstone Creek, some forty miles south east of Vermilion arrived in town to load outfit and supplies which had been shipped up from Battleford.

—The line-up of the Edmonton team for tonight's baseball game is as follows. Vining, pitcher; Gienno, catcher, Dobson, first base; Cronn, second base; Berry, third; Short, s.s.; Dr. Till, left field; McGurl, right field; Maloney, centre field; Sickles and Regan.

—Rev. Dr. Crewes, general secretary of Epworth Leagues, will be in the city on Wednesday, and in the evening will address a union meeting of the leagues of McDougall church, Grace church and Strathcona Methodist church in McDougall church. The regular meetings of these leagues this evening has been cancelled.

—F. T. Fisher, secretary of the board of trade has received a letter from the adjutant of the Salvation Army at Brandon, stating that several married couples were coming from the old country, and would be glad to learn of any prospect of employment. Any one wishing to employ help of any kind, may learn more of these people by applying to Mr. Fisher at the board of trade rooms.

—Confirmation services were held in St. Joachim's church yesterday by Bishop Legal. First Communion was administered to the children at 8 a.m., when Father Rosenthal delivered address. Confirmation took place at 10.30, and Bishop Legal preached. In the evening the sermon was delivered by Father Leduc, and the boys of the confirmation class were enrolled in the Sacred Heart, the girls being enrolled to the order of the Children of Mary.

BOARD OF TRADE MEETS

The May meeting of the board of trade will be held on Tuesday afternoon next, at 2.30, in the council chamber. A large attendance of members is especially requested as there are several important matters to be discussed, amongst which will be several resolutions to be presented by Edmonton Delegates at the third annual convention of boards of trade to be held in Edmonton on June 13 and 14.

SACRED CONCERT

At the request of the Ladies Aid and W.F.M.S. of McDougall Methodist church the sacred cantata, Gault's "Holy City," which was given by the choir a few weeks ago will be repeated in the church tomorrow evening. The concert will commence at 8.30 sharp. No admission will be charged, but a collection will be taken up in aid of the public hospital.

DIXIE SINGERS TONIGHT

Chas. P. Williams & Co. the Dixie Jubilee singers, give their entertainment in the Thistle rink here this evening, commencing at 8 o'clock. The program rendered by the singers will consist of jubilee songs, plantation songs, negro melodies, cabin and river songs, sentimental songs and ballads. The prices of admission are, reserved seats 75c, general admission 50c and 75c. Reserved seat plan at Archibald's drug store.

BASEBALL TONIGHT

Enthusiasts of the national American ball game will see an exhibition this evening on the Second street grounds that will make them sit up and take notice. The senior nine from Wetaskiwin that we have read about, are coming up to play before the Edmonton public in a return match with the Edmonton seniors. The admission to the exhibition will be the usual two bits and the game will commence sharp at 8.30.

Among those present were Mesdames P. Hardisty, Saunders, Hialop, May, Strathy, Wilson, Ferris, Ross, H. Ross, Norquay, Marshall, Webster, Belcher (Lethbridge), Charlesworth, Misses Webster, Belcher, Flinders, McIsaac, Clark and others.

At the annual meeting of the Daughters of the Empire held recently in Toronto, the general secretary's report showed that there had been fifteen meetings, regular and special, of the executive during the year, and ten meetings of the officers. The number of chapters that had been inaugurated in the year was 23, many of these in the Northwest. There was an enrolled membership of 575, and the total number of chapters was 91. The number of "Echoes," pamphlets and reports distributed in 59 parcels sent out was 1,800. Her Excellency the Countess had accepted the honorary presidency, and Lady Grey Wilson had consented to hold the same office for the Bahamas. Mrs. Bulyea and Mrs. Fraser were honorary vice-presidents for Alberta and Nova Scotia respectively. The various events of the year in connection with this patriotic work were reviewed in detail. The Children of the Empire have established 19 chapters, and there was one in Jamaica. It was felt that the Daughters of the Empire were having an influence in cementing a "Union Imperium," and were an element in the life of the Empire.

EDMONTON RIFLE ASSOCIATION

The Canadian Military Rifle League match of Saturday, 26th, resulted in the first ten scores being as follows, these ten scores to count in the competition.

The weather was not of the best, so the result was not quite as good as was expected.

	yds	yds	yds
	200	500	600
D. Bisset	31	31	30
H. B. Spratt	31	28	28
P. McNaughton	28	28	28
S. S. Brown	24	26	29
A. Cameron	25	27	29
G. A. Reid	26	26	28
W. Pearce	25	29	24
J. Carmichael	28	27	22
J. Whitelaw	29	25	22
W. S. Weeks	26	29	20

The next three shoots in the C. M. R. matches will be held on June 2nd, July 7th and July 14th, rain or shine. Coupons for issue of ammunition can now be obtained from the secretary-treasurer.

THE BIG STORE

BARGAIN SALE OF

--SILK BLOUSES--

All lines selling at a great reduction. The sleeves of some of these are not made in the present style, but they can be easily altered, and the price we quote makes them a genuine bargain.

They are made of good quality silks, nicely finished and are selling at less than cost, so we must clear them out at once.

Come Early and Get First Choice

Another bargain in our carpet department. We are offering

25 per cent. reduction

off regular price on all carpets, linoleums and oilcloths.

Now is an opportune time to procure new floor-coverings at little cost.

See Centre Window for Cut Prices.
